题目

The map below shows the Road System as it is now and proposed changes in future to reduce the number of accident. Summarize the information by selecting and reporting the main features , and make comparisons where relevant.

范文解析

地图对比描述的是一幅易发生交通拥堵路段的现在的布局和将来的规划。分段上可以前后各一段进行写作，这里要着重的是描述变化的内容，这里很多的不规则变化估计会是很多的同学的障

碍，但是注意这个不是最重点的，可以顺带，不是必须。最后提醒各位同学，地图最近的考试频率很高，出现规律不定，建议要加强复习和练习。

Those two maps compare the present layout of a road system and the **future planning** for it in the future.

There are four spots that experienced frequent accidents at present. The first place happens on the intersection between the City Road on the west and the Low Lane which leads to the school, surrounding by three rows of houses. To its south lies the second crossing which gives way to the Forest Road. While travelling to the north towards the eastern side of the City Road, we can see the third intersection. On its left, it is clear that the fourth frequent accident occurs on the entrance of City Road where supermarket attracts a large number of travellers.

However, in the future, it is noticeable that a roundabout will be built in the centre of the Forrest Road, which might reduce the speed of the vehicles to avoid the last two frequent traffic collisions. Another noticeable change is

	<p>that there are four traffic lights that are installed on the crossings between the city road and school. The original low lane on the south in conjunction with both the City Road and the Forrest road will be demolished.</p> <p>Overall, this proposed road system is likely to be more fully developed in order to avoid traffic accidents.</p>

## Task 2

类型	媒体类
题目	<p>Although more and more people read news on the internet, newspapers will remain the most important source of news.</p> <p>Do you agree or disagree?</p>
范文解析	<p>该题目是关于科技和媒体的议论文。虽然越来越多的人通过网络获取新闻，但是报纸依然是最重要的新闻来源，问是否同意。考生可以从互联网和报纸两种媒介的优缺点作为突破口。首先不可否认的是纸媒的信息更加准确和权威，对于某些特定人群来说报纸依然很重要的，比如偏远地区没有网络的人们以及老年人等。但是，网络更具有优势。网络新闻更新快传播快，新闻呈现方式</p>

	多样比如语音视频等，还不受地域限制，更有影响力；相反，报纸传播速度很慢，及时性较差，需要较长时间编辑审核而且不方便携带。另外，互联网时代的新闻传播方式更加环保，不像报纸成本很高并且回收率低，有可能造成资源浪费。总体而言，网络信息会越来越受欢迎。	
文章结构	P1：交代背景 引出话题 表明立场； P2：主体段，让步报纸的优点，信息准确吸引特定群体； P3：主体段，互联网新闻的优点，更新快有影响力环保； P4：总结全文 重申观点。	
高分话题	the wide availability	广泛应用
表达（范文	current affairs	时事新闻
中红色字	predominant source	主要来源
体）	a kind of Internet age alternative to	互联网时代...的替代品
	in-depth reports	深入的报道
	a rigorous censorship system	严格的审核系统
	get accustomed to reading	习惯于
	the emergence of	出现
	get informed of	被告知
	without geographical boundaries	没有地理边界
高分结构	it is asserted that	主语从句
（范文中	I am of the opinion that	同位语从句

蓝色字体 )	There is no denying that	让步句
	for the recognition that	同位语从句
	compared with	对比论证
	being complicated for	插入语
范文	<p>One of the most significant advances in human civilization is <b>the wide availability</b> of the Internet where <b>current affairs</b> can be accessed instantly. However, <b>it is asserted that</b> newspaper remains the <b>predominant source</b> of information. <b>I am of the opinion that</b> digital news will gain more popularity or even become <b>a kind of Internet age alternative to</b> traditional press.</p> <p><b>There is no denying that</b> more detailed and <b>in-depth reports</b> can be gained from newspapers because <b>a rigorous censorship system</b> is applied to ensure accuracy of the news. In addition, some readers, especially elderly citizens, may <b>get accustomed to reading</b> newspapers mainly because they are not familiar with the functions of electronic gadgets or mobile devices. However, this traditional mode is being challenged by <b>the emergence of</b> new media or might even lose its dominance.</p>	

On the other hand, more benefits can be brought by the prevalence of the Internet. Firstly, global recipients can immediately **get informed of** what is happening worldwide **for the recognition that** online news can be transmitted **without geographical boundaries**, so to this date, people are able to browse the international news with the greatest of ease. Moreover, **compared with** newspapers **inundated with** printed articles, sounds and videos online can better convey information and facilitate perception of audience. Furthermore, online reading is not only time-efficient but more environment-friendly, which saves the time of printing and distribution. By contrast, the newspaper industry, **being complicated for** news to be edited, published and issued, is also a heavy polluter and large consumer of wood resources.

In summary, although newspapers will continue to serve as an important means to provide information, with the universal access to the Internet, a rising number of people have been turning to reading on the web.
